## Rear Derailleur Adapter

## Assembly Instructions :

- Release the Cable and then remove the Neos Derailleur using the 5 mm Hex Key.
  - Grease Neos Mounting Hole on frame and then thread Adapter Bolt through Adapter Bolt Hole and into the Neos Mounting Hole, then tighten gently.
  - Ensure the Axle Slot is aligned with the Rear Drop Out then tighten the Adapter Bolt to 10 Nm using the 5 mm Hex Tool.
  - Clean the right Chain Stay to remove any dirt or water and then peel the backing away from the self-adhesive pad on the Cable Guide. Then press the Cable Guide firmly against the Chain Stay about 5 cm (2") away from Dropout. Gently bend the base of the Cable Guide to conform to the shape of the Chain Stay.
  - Follow the instructions included with the new Derailleur, Shifter and Cable to complete the installation, remembering to feed the Cable through the Cable Guide.
- ▲ Confirm that the Cable Guide is mounted securely before riding.
