

GSD Sidekick™ Seat Pad

1. Release Strap
 2. KLIKfix® Adapter
 3. Vent Zipper
- A. Rear
B. Front

Safety

Seat Pad is approved for use on the Tern GSD only.

⚠ It may be illegal to carry passengers on a bike in your area even if it has been designed or configured to do so. Check your local regulations before carrying passengers.

Footrests

Seat Pad must be used with footrests such as the Sidekick Foot Pegs or Sidekick Lower Deck. Passenger must be tall enough so that their feet can lay flat on the footrest. If a child's feet cannot comfortably reach the footrest, please use a child seat instead.

Handholds

Whenever the GSD is in motion, the passenger must hold on to something stationary such as frame, saddle or add-on handle.

Helmet

Passengers must wear an approved helmet.

Attire

Avoid wearing loose-fitting clothing such as skirts, pants, and shoelaces which can get caught in the spinning wheel. Take care that all straps are tied down.

Protection from Tire

Seat Pad must be used with a set of flat folding Tern Cargo Hold™ Panniers or pannier bags to act as a safeguard from the tire.

Removal

⚠ When the KLIKfix releases, your hand may suddenly lurch and strike the bike. Get used to the force required for release and make sure you have enough clearance to avoid injuring your hand.

Mounting Locations

The Seat Pad can be mounted toward the front or the rear of the bike on the rear rack. Have the rear passenger sit on the bike to determine the most comfortable position and to check that the passenger does not interfere with the rider's heel clearance. Reposition the seat pad accordingly.

Caring for the Seat Pad

When not in use, keep the Seat Pad away from direct sunlight to extend its life.

If your Seat Pad gets wet, open the zipper to allow for faster drying. It is advisable not to remove the foam from the sleeve because it will be very difficult to put back in.
